

ACAIA LUNAR 2021

Designed for brewing espresso with consistent precision, the reimagined Lunar is fast, responsive, and accurate. This scale is built with water-resistant anodized aluminum and Acaia's own leading industrial weighing technology. It is an essential element for any commercial environment and fits perfectly onto espresso machines.

Brew your own way with customizable parameters, a choice of automated brewing modes, and a new Tare Save feature to save the weight of your preferred dosing container. The visual feedback provided by the new Flow-Rate Indicator will also help you monitor your extraction in real time, achieving more consistent shots and allowing you to adjust more accurately for perfect espresso extractions.

Accessories that are sold separately include the Lunar Weighing Plate, Lunar Base, and the Lunar Carrying Case. Each Lunar scale comes with a heat resistant pad and a 100 g calibration weight. The Lunar includes a 2-year limited manufacturer's warranty, which also covers water damage.

FEATURES

FAST, SENSITIVE, AND RESPONSIVE

With the latest weighing technology, the Lunar stabilizes faster during brewing, saving you precious time and creating a smooth workflow.

REAL-TIME FLOW-RATE INDICATOR

The new Flow-Rate Indicator allows you to watch your shot flow rate in real time, so you can spot the subtle changes in the extraction, understand your shot better, and make adjustments for a perfect espresso.

CUSTOMIZABLE ESPRESSO WORKFLOW PARAMETERS

Expand your workflow and record your coffee recipes. Connect the Lunar scale to our Acaia brewing apps via Bluetooth 4.0 technology. You can also connect to a variety of third party apps and devices for even more uses.

HIGHEST READABILITY UP TO 0.01 G

The 0.01 g high resolution option in the Lunar offers you an extra digit of reference for the most accurate espresso weight.

ACAIA TECHNOLOGY CONNECTIVITY

Built-in espresso modes will automatically start and stop a timer or tare to speed up your preferred workflow. The new Tare Save function allows you to store the tare weight of your preferred dosing container or cup.

USB TYPE-C RECHARGING

A greener alternative power source, the lithium-ion battery can last up to 30-40 hours. In addition, we have upgraded the charging port to USB Type-C with PD Support, which contributes to longer battery life and protection.

MODES AT A GLANCE

WEIGHING MODE

The weighing mode for all weighing purposes

AUTO-TARE MODE

Automatically tares item weight for quicker measurements

DUAL DISPLAY MODE

Timer and weight dual display

TIMER STARTS WITH FLOW MODE

Timer starts when espresso flow is detected

AUTO-TARE AUTO-START TIMER MODE

Timer begins when an item is placed on the scale

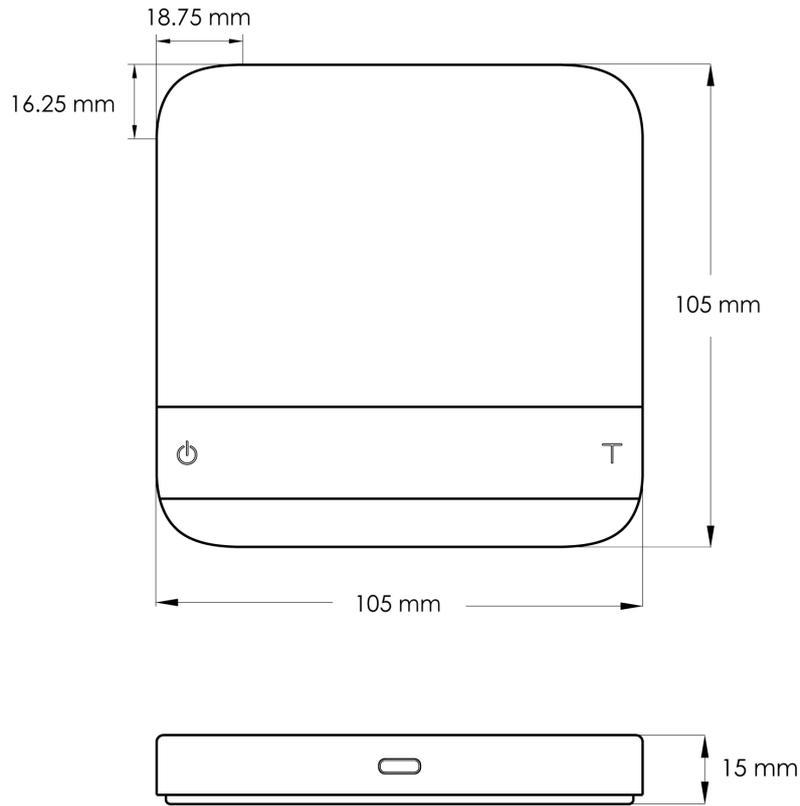

AUTO-TARE TIMER STARTS WITH FLOW MODE

Automatically tares item weight, and the timer begins when the first drop of espresso hits the cup

PRODUCT SPECIFICATIONS

Model	AL008 / AL009
Color	Black / Silver
Product Weight	265 g ± 5 g
Product Dimensions	W: 105 mm L: 105 mm H: 15 mm
Maximum Capacity	2000 g / 70.55 oz
Minimum Weight	0.1 g
Measuring Units	g / oz
Readability	0.1 g / 0.01 g
Repeatability	0.1 g
Display	8-digit LED
Material	Aluminum, Acrylic
Power Supply	5 V / 500 mA
Connectivity	Bluetooth 4.0
Warranty	2 Years

PACKAGE INFORMATION

Model	AL008 / AL009
Color	Black / Silver
Carton Dimensions (Single)	W: 140 mm H: 150 mm D: 70 mm
Carton Gross Weight (Single)	0.62 kg
Carton Dimensions (Master)	W: 305 mm H: 300 mm D: 310 mm
Carton Gross Weight (Master)	13.13 kg
Carton Quantity	20 units in one box
CBM	0.028
EAN Code	0640117991275 / 0640117991282
UPC Code	640117991275 / 640117991282
