

Key Features:

PRO Technology: detachable upper burr holder exposes the grinding chamber so cleaning is simple and easy. Just detach the two levers to tidy up. The one-time grinder settings never change anytime it's detached.

Featuring enormous 71mm conical burrs and a robust motor, this grinder is perfect for high-volume cafés and drive-thrus.

Cooling Fan: a sophisticated thermo-stat-controlled cooling fan for optimal bean temperature maintenance. The cooling fan kicks in precisely when needed, preserving the delicate aromas and nuances of your freshly ground coffee.

Compatible with the PUQpress M4 automatic tamper.

Controlled dosing for no spray or messy waste on the bar.

Italian-made quality.

Description:

The Fiorenzato Manual Doser Grinder with Conical Burrs – is the ultimate solution for drive-thrus and high-volume coffee establishments. With its robust 71mm conical burrs, this grinder is engineered for relentless productivity without sacrificing precision or quality.

This grinder enhance barista efficiency with its innovative PRO Technology. The detachable grinding chamber simplifies cleaning, requiring just the lift of two levers while preserving grind settings for consistent performance without the hassle.
