

Key Features:

- **XGi Technology:** dial in the perfect dose with grind by weight (gbw) based on grams for precision and quality. The barista specifies how many grams of coffee they want using the intuitive touchscreen. **The result is exact doses and perfect drinks.**
- **PRO Technology:** detachable grinding chamber so cleaning is simple and easy. Just detach the two levers to tidy up. The one-time grinder settings never change anytime it's detached.
- **SENSE Technology:** SENSE system keeps shots consistent, workflows smooth, and customers coming back.
- **Dark-T Burrs:** Featuring a black coating blend of titanium, aluminum, carbon, and nitrogen, that ensures durability five times longer than standard burrs (laboratory-tested). Burrs are produced in-house using a computerized numerical control machine to ensure absolute quality. Highly resistant to corrosion, and wear, and mighty tough.
- **The IPS touchscreen** display is ultra-responsive and extremely user-friendly.
- **Italian-made** quality.

Description:

The Fiorenzato F83 E PRO SENSE is built for high-volume cafés that need speed, precision, and consistency all day long. It's Sense Technology automatically weighs each dose as you grind, eliminating guesswork and waste. Master Mode takes care of workflow by detecting your portafilter's weight and auto-starting a single or double dose—no buttons needed.

With powerful 650-watt performance and large 83 mm flat burrs, it handles peak rushes with ease. The detachable PRO chamber makes cleaning fast, while EVO Technology controls internal heat to protect bean flavor. Add in long-lasting Dark-T Burrs, a responsive IPS touchscreen, and PUQpress M4 compatibility, and you've got a powerhouse grinder designed for serious café performance.

Technical Specifications:
