

Key Features:

- A home grinder for Moka pot, espresso, and filter brews so your morning coffee just leveled up.
- Color-changing screen, based on grind type, with endless grinding combinations
- 64mm Redspeed Titanium coated burrs with a life expectancy of about 6-8 years.
- The casing was engineered to eliminate vibration and noise so this is a quiet grinder.
- Modern styling with a gorgeous touchscreen interface.
- The Allground+ Coffee Grinder in Arctic White features a touchscreen interface wrapped in walnut wood. This color option is an excellent choice when trying to achieve an elevated look for your kitchen or office space.

Description:

The Allground is the ultimate home grinder and we're crushing over this one for a few reasons. First off, you can easily and intuitively grind for different brew methods; espresso, Moka pot, and filter brews. Beyond that, the revolving nut makes it easy to dial in your desired grind texture so you can play around with different roasts. Its made with flat burrs for more consistent grinds that are Redspeed Titanium coated with a life expectancy of about 6-8 years. To eliminate vibration and noise, the casing was thoughtfully engineered so you can have peace of mind that fresh grinds are acceptable at any hour. Additionally, it's easy to clean. All in all, it's a great-looking grinder, styled with a gorgeous touchscreen interface comprised of visual cues that are highly intuitive.

The AllGround really is the ideal home coffee grinder because you can adjust your grind settings to match your brew style. Effortlessly switch between espresso, Moka pot, and manual brews using the highly intuitive touchscreen interface. It's the most beautiful coffee grinder out there and foolproof for any skill level.
