

Key Features:

- **PRO Technology:** detachable grinding chamber so cleaning is simple and easy. Just detach the two levers to tidy up. The one-time grinder settings never change anytime it's detached.
- **EVO Technology:** climate control system that controls the heat coming off the motor. This keeps your beans from overheating so your drink quality is always consistent.
- **M340 Steel Burrs:** currently the only burrs being produced using material intended for food. Burrs are produced in-house using a computerized numerical control machine to ensure absolute quality.
- **The IPS touchscreen** display is ultra-responsive and extremely user-friendly.
- Highly resistant to corrosion, wear, and mighty tough.
- Controlled dosing for minimal spray.
- **Italian-made** quality.

Description:

Whether you're a high volume or medium volume business, the F64 EVO PRO is a top shelf espresso grinder. The defining feature of this grinder is the detachable two-lever design that allows you to access the burrs for easy cleaning. That's on top of the Fiorenzato brand reputation for being very clean on the bar with little spray or waste. Baristas enjoy the highly intuitive touchscreen display with a scrolling menu because they can easily switch between grinding modes and monitor coffee stats. An automatic climate control system keeps grind temperatures consistent and your drinks terrific.

The clever and efficient design of this espresso grinder make it easy use and suitable for any coffee business. This is a grinder that will improve the workflow and bring your baristas joy.
