Mahlkönig
Grind-by-Sync

// Quick Start Guide on Pairing Your Sync Systems in 6 Steps

1. GRINDER SETUP
- Unbox and commission grinder.
- Roughly dial in grinder to your desired recipe using grind by weight. Full instructions can be found here under "Downloads"
  E80W Grind-by-Sync Connected Espresso Grinder | Mahlkönig (mahlkoenig.com).

2. MAHLKÖNIG SYNC ADMIN DESKTOP APP WEBSITE SETUP
- Create an account on the Mahlkönig Sync Desktop App Admin website
  Hemro Admin (mahlkoenig.com).
- Once the account is created, create a region and then a store for where your grinder will be located. This is especially useful if you will deploy grinders in multiple regions and/or stores. More information can be found here
  E80W Grind-by-Sync Connected Espresso Grinder | Mahlkönig (mahlkoenig.com).

3. MAHLKÖNIG SYNC APP AND GRINDER PAIRING
- Install the Mahlkönig Sync Mobile App, and login using the Mahlkönig Sync Desktop App Admin credentials created in step 2.
- On the grinder, log in as owner in the user management section (*password: 1924*).
- On the grinder navigate to connectivity, Wi-Fi settings, and then quick connect. Scroll down if needed to display the QR code completely
- In the Mahlkönig Sync Mobile App, press devices and then add device, scan the QR code displayed on the grinder.
- When prompted, select your Store and enter the Wi-Fi credentials.

4. GRINDER CONFIGURATION
- In the grinder, navigate to connectivity, select cloud connection, ensure that cloud connection is enabled.
- Back up one level and navigate to machine-to-machine, ensure that your La Marzocco machine is enabled.

5. LA MARZOCCO PRO APP AND MACHINE PAIRING
- Install the La Marzocco Pro app, and pair your commercial espresso machine by following the instructions in the app.
- Once paired, select your machine and scroll to the bottom of the page. Press the button labeled "Manage" next to the Mahlkönig Sync icon.
- Press the button that says connect to Mahlkönig Sync, and you will then be taken to the Mahlkönig Sync mobile App.
- Select the grinder to be paired to the machine and complete the pairing process.

6. RECIPE SETUP
- On the grinder, edit the recipe that you've roughly dialed in the first step. Ensure that it is set to single shot with the single portafilter icon or double shot with the double portafilter icon. This will correspond with the espresso machine dose that is programmed via Sync.
- Be sure that the recipe DD is programmed to the distance that you've used to dial in the grinder. This ensures that the recipe will start from this position if the grind-by-sync information is ever reset.
- Turn on the GBS setting to enable grind by sync. The machine will now begin to adjust as you use it. It may take up to 5 shots to begin to adjust.
