

Classe 5

The Charme of Simplicity

Classe 5 offers premium essentials functionalities and performance at an affordable price, as no other entry level espresso machine on the market. Built with Rancilio coffee technologies and high-quality materials, it ensures thermal stability at the top of its range. Classe 5 is focused on what matters most: quality in the cup, ease-of-use and reliability. Its features are combined in a contemporary industrial design. And with a wide range of versions, there's a Classe 5 suitable for every need and working conditions.

HIGHLIGHTS

A Complete Versatile Range

Classe 5 is available in **Tall** versions, with raised groups to hold cups up to 14.5 cm high, and also in **compact** versions for limited working areas. On request, Classe 5 S can be ordered with gas heating (2GR and 3GR only) and in the **Tank** version (1GR only), which does not require fixed water connection.

Steady Brew

By keeping the water temperature stable during extraction, **Steady Brew** guarantees excellent thermal stability, reliability and maximum repeatability, both during busy periods and in low usage conditions.

LED Lights

LED lights oriented on the work area (optional) guarantee maximum visibility both on the cups when brewing coffee and on the jugs when frothing milk with the steam wands.

AVAILABLE VERSIONS

Models
