

PURITY C Filter Head

One Filter Head System for all applications

By providing various connections and bypass settings, VIVREAU Professional filter heads form the basis for the PURITY C filter cartridge range. All filter heads enable a variable bypass setting of 0-70% and are available with either 1/2 NPT, G 3/8" or John Guest connections. This guarantees you an optimum water quality for every application (coffee and espresso machines, vending machines, combi ovens, conventional ovens and coolers).

IntelliBypass

A largely volumetric-flow independent bypass water proportion ensures constant water quality, also for low water flow rates.

The benefits to you

- Various head designs for targeted adaptation to individual requirements
- Simple to handle with rapid-change system
- Innovative locking handle for reliable adjustment
- Water inlet and outlet on one filter head side for space-saving installation
- Integrated flush and bleed valve
- Simple pre-rinsing and bleeding
- Fast and convenient filter exchange without the need for tools
- Water short-cut if cartridge is not inserted

Flush valve with convenient slider mechanism for all 0 – 70% filter heads

Available with three connections G3/8", JG 8 mm and 1/2" NPT

Three simple steps for optimised water

Two minutes for your new water filter

- 1**

To exchange the filter cartridge, rotate the locking handle to divert the water and release the cartridge. Press the flush valve and depressurise the filter. Remove the filter cartridge from the filter head.
- 2**

The filter cartridge can be pivoted by 90° in the wall mounting bracket for removal. Remove the protective cap from the new filter cartridge. Note the next exchange date in the date field on the filter cartridge.
- 3**

Insert the filter cartridge vertically into the filter head and turn the locking handle until you hear it click. Operate the flush valve and rinse the filter system until the filtered water runs clear without bubbles – done!

PURITY C Filter Head system	Order number
Filter head 0 – 70 % ¹ (1/2" NPT)	1031654 (Pack 1)
Filter head 0 – 70 % ¹ (G 3/8")	1013622 (Pack 1)
Filter head 0 – 70 % ¹ (JG 8)	1033576 (Pack 1)
Filter head 0 – 3 C Steam ² (G3/8")	1033043 (Pack 1)
Accessories	Order number
FlowMeter 10 – 100A (1/2" NPT)	1033723 (Pack 1)
Temporary hardness test kit	710801
Total water hardness test kit	1033075
Explanatory notes	¹ Can be used flexibly for all applications ² To be used exclusively for the PURITY C Steam filter cartridges

Only drinking water quality may be used as the water supply for VIVREAU water filters.
